Title	Cyntech Quality Policy				Applies To	All

# Quality Policy

At Cyntech, we are a global community committed to our core values.

Our core competencies in the design and application of high-capacity helical pile foundations and pipeline stability systems enable us to be a worldwide leader at delivering safe, efficient and cost-effective solutions to the most challenging subsurface construction issues.

Through total commitment from top management, our people are empowered to engage in the continual improvement of our ISO9001 based Quality Management Systems.

## OUR METHODS, OBJECTIVES AND PRINCIPLES

- **C**ontinuous evaluation of standardized KPIs, scorecards and metrics
- **Y**ielding the highest returns to our stakeholder community
- **N**ever ending commitment to new technology and product improvement
- **T**otal commitment to data driven decisions
- **E**xceeding customer requirements and expectations
- **C**ontinual improvement of our QMS through training and communication
- **H**ighest commitment and priority to working and delivering safe & reliable solutions with exceptional environmental stewardship

This Quality Policy shall be regularly monitored and reviewed to ensure ongoing effectiveness and suitability.
